EGPO Stornoway

The oasis on the outskirts of Scotland

Freeware scenery for P3D and FSX
Version 2.0

Another Scottish military airfield that received a second life after the end of the Cold War.

Stornoway was built in 1937 on the Isle of Lewis, in the northwestern part of Scotland. Before being transferred to civilian use in 1998, it served as a base for the Royal Air Force, NATO, and as a home for the classified "122 Signals Unit".

Modern Stornoway is a fairly busy regional airport, and one of the ten main Coastguard bases in the United Kingdom. It sees about a dozen passenger flights per day, operated by Loganair's Saabs and Embraers. Destinations include Glasgow, Edinburgh, Aberdeen, Inverness, and London Southend.

Heavy crosswinds, harsh climate and rugged charm make flying to Stornoway a challenging but rewarding experience.

Features:

- Precise layout, accurate marking, and correct nav aids
- Seasonal photo background with night lighting
- Enhanced city of Stornoway and the surrounding area
- Custom GSX preset
- Latest available charts included (January 2019)
- Compatible with P3Dv4, P3Dv3 and FSX
- Compatible with Orbx Scotland

INSTALLATION

1. Delete other EGPO scenery if you have one
2. Manually add "EGPO Stornoway by DimOn" folder to your P3D or FSX scenery library
3. If you have Orbx Scotland, this scenery must have higher priority (place it above Orbx entries in your scenery library)
